CG Absolute Return Fund

Overview

cgam

CG Absolute Return Fund Overview

Investment Objective

- To achieve **cost-effective, long-term absolute returns** via a global portfolio of equities, bonds and commodities
- Simple low-cost approach, no gearing, no short selling
- The fund is actively managed, without reference to a benchmark

Fees and Structure

- Size: **£588m** (launched in May 2016)
- Management Fee: **0.35%** | Total Expense Ratio: 0.50%
- Daily priced Irish UCITS

Investor Profile

The fund has a broad range of investors who typically exhibit the following characteristics:

- A long-term investment horizon
- An aversion to significant short-term losses
- A desire to generate returns that outpace inflation over the long term
- A focus on GBP-denominated returns

Overview

CG Asset Management Overview

2001

Founded

Founded in 2001 by Peter Spiller, former Chief Investment Officer and Chief Strategist of Cazenove

£2.2bn

AUM

£2.2bn in assets under management

2

Strategies

Manages two strategies, absolute return and real return, across six funds

10

Employees

Team of 10, based in London

295x

Return

Low-cost offering, with fee reductions regularly reviewed

2

Down Years

Capital Gearing Trust ("CGT") has returned 295x since 1982, with only two down years

CGAM in partnership with our clients

What makes us different?

What does that mean for our clients?

The firm's founding principles

1. The client comes first
2. Don't be greedy
3. Have fun

In turn these principles mean that:

- We have and will close funds to **protect investors**
- We continuously strive to **lower fees**, even on closed funds

Employee owned

- Majority owned by an Employee Ownership Trust, which means we will remain independent
- All portfolio managers are significant shareholders in CGAM

The right incentives

- A significant majority of our own capital is invested in our funds
- Our interests are directly aligned with those of our clients

Overview

Funds Summary

| Strategy | Fund | ISIN | Launched | AUM ⁶ | Dealing Frequency ² | AMC Fee | TER |
|--|---|--------------|-------------------|------------------|--------------------------------|----------------------------|-------|

Principles

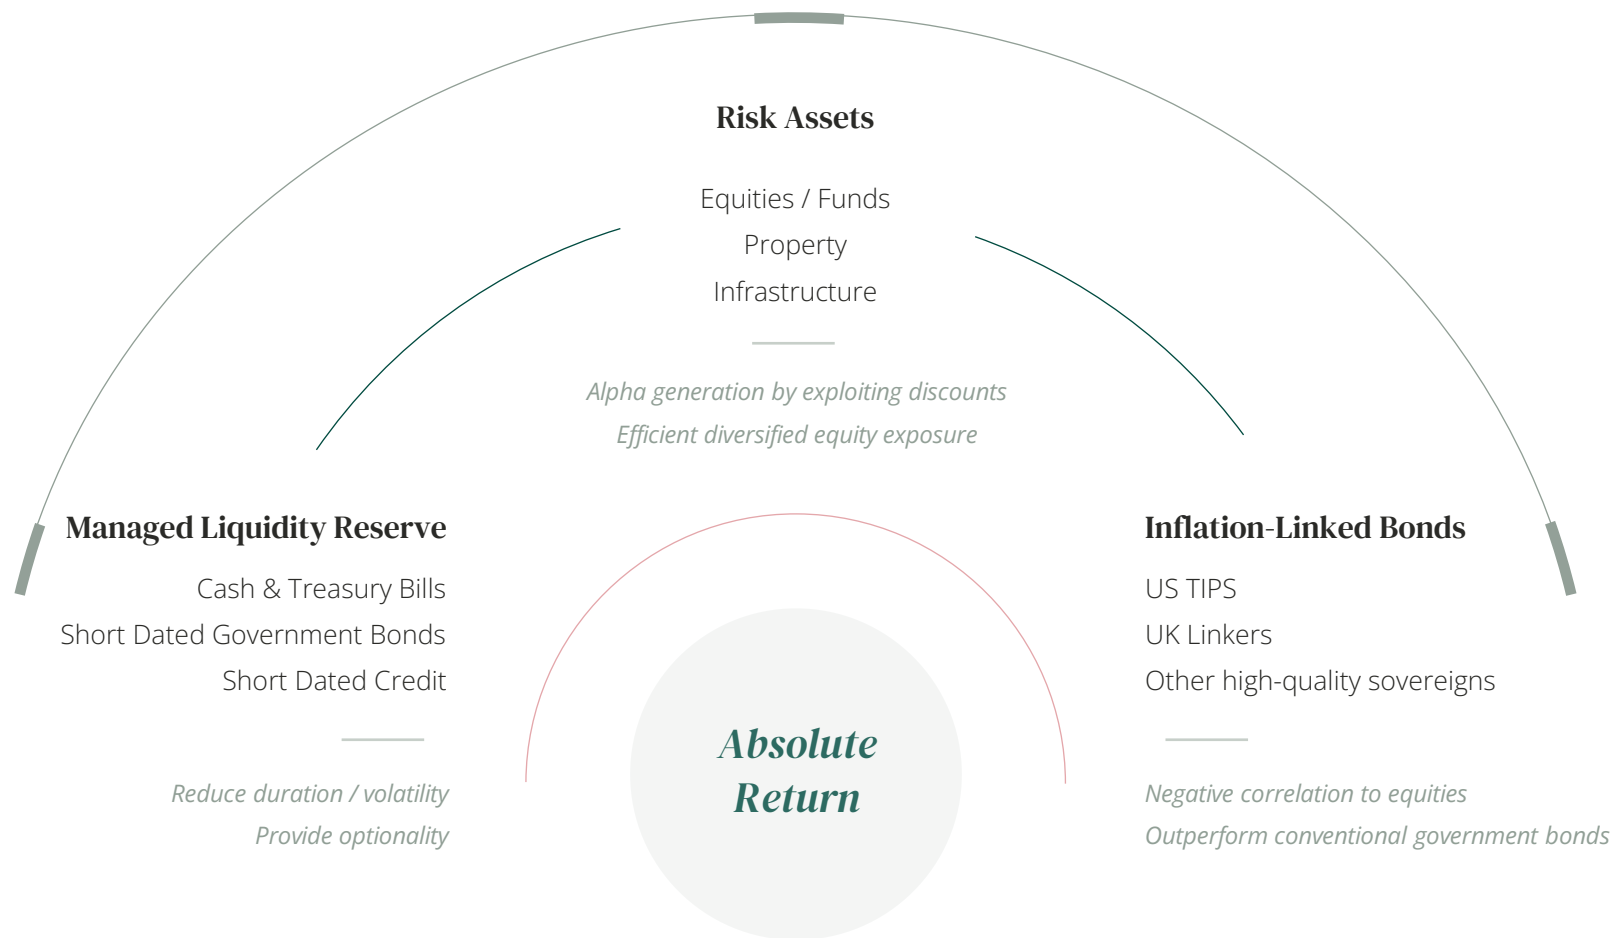

5 inputs drive our asset allocation, underpinned by a focus on duration

Dynamic asset allocation that responds to the business cycle

3 Core Asset Allocation Pillars

Inflation-Linked bonds are a fundamental component of our asset allocation

Protection against financial repression

Only asset that we believe is likely to deliver protection

Negative correlation with risk assets

Particularly overseas against sterling denominated risk assets

Historic outperformance vs nominal bonds

Such outperformance is likely to persist into the future

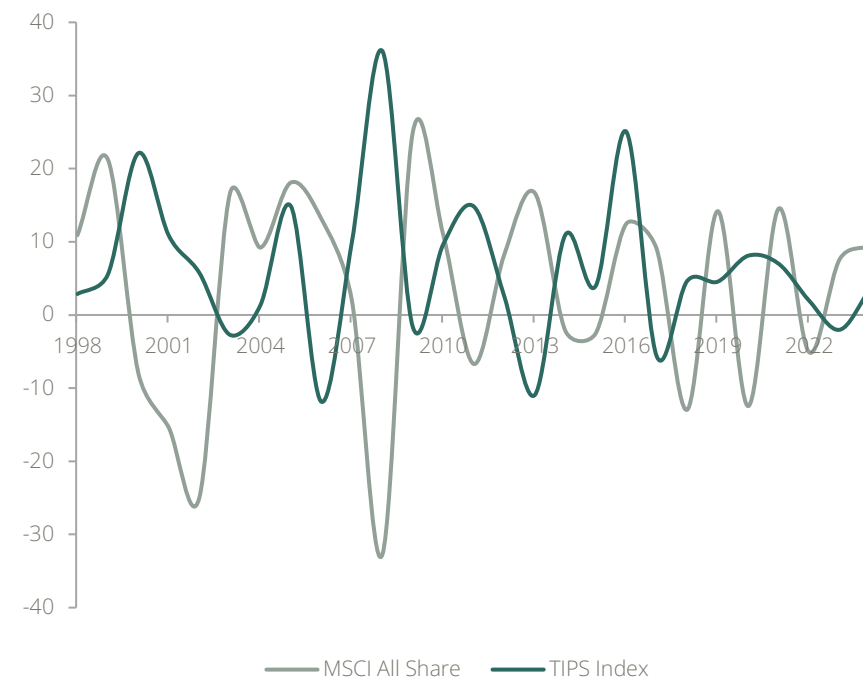

Inflation as greatest risk to investor wealth

Against which equities are only a partial hedge

Significant risk of inflation persistence

The historical record does not support a swift return to the target

Annual Returns % of UK Stocks and TIPS – unhedged in GBP (1998 – 2024)

CG Absolute Return Fund

Positioning and Returns

cgam

Positioning is defensive, with a focus on inflation protection

CGAR Asset Allocation April 2026

Contribution by Asset Class LTM April 2026¹

1) Performance net of fees

Source: CGAM, Bloomberg Finance L.P., Northern Trust

Positioning and Returns

Changes to asset allocation tend to be modest over the short term but can be fundamental over the long term

CGAR Asset Allocation – 2017 to 2026

Source: CGAM, Bloomberg Finance L.P., Northern Trust.

Positioning and Returns

Positioning is defensive relative to history, owing to concerns around the outlook for government debt and stretched equity valuations

CGAR Asset Allocation: Since inception (June 2016)

Both equity and bond portfolios have contributed to strong performance

CGAR Risk Assets Return Performance to April 2026¹

CGAR Bonds Only Return Performance to April 2026¹

¹Risk Assets include equities, property, alternatives and gold. Bonds include credit and sovereign bonds (excluding T-Bills and cash)
Source: Bloomberg Finance L.P., Northern Trust

CGAR has outperformed comparators on an absolute and risk adjusted basis

CGAR vs. Comparators: Total Returns (since inception) to April 2026¹

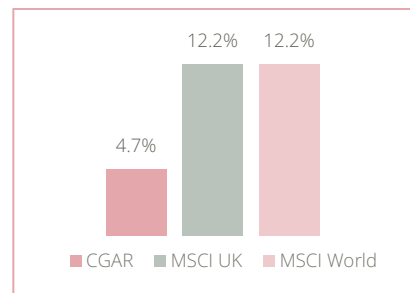

1. The Morningstar PIMFA Private Investor (Conservative Index) aims to represent the investment strategy of a UK private client adopting a conservative approach to their investment
Source: Bloomberg Finance L.P., Northern Trust

Positioning and Returns

Returns have come with low correlation to equity & bond markets, and excellent risk adjusted performance

Sharpe Ratio & Volatility (%) vs. Major Indices

CG Absolute Return Fund

Considerations Within Our Investment Approach

The moral principles underpinning our investment approach

Be honest

No greenwashing, no PR-led initiatives, no jargon. We believe in an accurate presentation of our activities not a marketing campaign.

One firm, one rule

Our standards apply to all the funds we advise. We do not have ethical and by implication unethical funds.

Ethics, not mathematics

There is no formula that can be applied in a uniform way to every situation. We emphasise judgement over simplistic third party ESG scoring systems.

Don't disinvest, engage

When investors have the influence to effect change, it is most valuable to encourage positive transition rather than engage in blanket disinvestment.

Targeted

As a small firm, we must focus our efforts where they will have the most influence, rather than taking a generalist approach.

Governance

Investors have multiple direct mechanisms to influence governance, so we primarily focus on governance even when the ultimate objective consists of other priorities.

Integration, not separation

The entire team is collectively responsible for stewardship activities, with the ultimate responsibility lying with the chief executive. We do not have a standalone responsible investment team.

Act, with humility

Every action results in both intended and unintended consequences. Reflect deeply on the risk that good intentions can lead to unintended negative outcomes.

Considerations for individual asset classes

1. Direct Government Securities

The majority of the assets held by the funds are invested in direct holdings of securities issues by governments including bonds, bills and cash.

When investing, we consider indices compiled by a range of NGOs and require sovereigns, at a minimum, to achieve strong rankings in at least four out of five of these criteria. In addition to using third party indices, we also overlay our own subjective assessments which typically leads to material additional exclusions.

As we manage funds that invest exclusively in US and UK bonds respectively these jurisdictions will always be included but other sovereigns are subject to these exclusion criteria.

| Index | Criteria |
|---|--|
| World Bank governance effectiveness index | Top quartile |
| World press freedom index | Good or satisfactory |
| Global freedom score | Free rating |
| UN human development index | Very high human development rank |
| Net zero by 2050 statement | Statement of intent by 2050 or earlier |

2. Direct Corporate Credit and Preference Shares

The funds hold small quantities of direct credit and preference share holdings issues by corporate issuers. Given our small participation in the market and therefore limited influence, our primary approach is to exclude corporate issuers who are primarily engaged in the following activities:

| Exclusion Area | Exclusion sub-Area | Threshold |
|------------------------------|---|-----------|
| Controversial weapons | Anti-personnel mines, cluster munitions, chemical weapons | 0% |
| Tobacco | Manufacture or marketing | <5% |
| Thermal Coal | Coal mining or coal-based energy production | <5% |
| Oil sands or arctic drilling | Production | <5% |
| Gambling | Services | <5% |
| Adult entertainment | Production or broadcasting | <5% |
| Firearms | Manufacture | <5% |
| Predatory lending | Services | <5% |

Considerations for individual asset classes

3. Listed Closed-Ended Funds, Investment Trust, REITs and Property Companies

CGAM has a long history of active engagement in the London market for listed closed ended funds and other collective investment companies including REITs. In this priority area for engagement, we seek to achieve positive transition so do not employ systematic exclusions.

Listed investment companies are fundamentally different to operating companies and typically have the following features:

- They hold a broad portfolio of securities on behalf of their shareholders;
- External investment managers rather than executive management teams;
- No employees or customers; and
- Have a board of directors to represent shareholder interests and concerns.

Given the prominent role that directors play in investment companies, CGAM frequently undertakes activities that aim to influence boards and ultimately improve governance. The techniques employed vary based on the specific scenario but include those listed here (see box).

As well as engagement in the sector, CGAM places particular importance on providing primary capital to high impact investment companies and a number of our holdings have a positive environmental or social focus. In our assessment, by providing primary capital, via IPO sponsorship or follow on fund raisings, investors have a greater impact than by simply trading securities in the secondary market.

| Activist Engagement Technique | Frequency of Employment |
|---|-------------------------|
| Management Engagement | Continuous |
| Board Engagement | Continuous |
| Shareholder co-ordination | Frequent |
| Voting against significant resolutions | Frequent |
| Raising ESG matters in fund reporting | Frequent |
| Amplification through press engagement | Periodic |
| Replacing directors to improve governance | Periodic |
| Publishing open letters | Periodic |
| Publishing research incorporating ESG views | Periodic |
| Threatening to requisition meetings | Periodic |

4. Exchange Traded Funds ('ETFs')

Funds advised by CGAM hold relatively small quantities of exchange traded funds. ETFs are listed collective funds which typically track an index and provide low cost, efficient access to a broad portfolios of securities. CGAM does engage directly with our approved panel of ETF providers to encourage improved stewardship standards. However our capacity for effective engagement is limited, we therefore consider exclusions where there are suitable ETFs available. Typically this is via ESG screened ETFs which is a dynamic and growing sector. The programme of identifying and conducting due diligence on these products is ongoing.
